FEBRUARY 2007

## VILLABOARD® LINING

Villaboard® Lining is manufactured from Portland Cement, ground sand, cellulose fibre and water, autoclaved to form high quality building products.

Villaboard® Lining is manufactured to comply with Australian / New Zealand Standard AS/NZS 2908.2 'Cellulose Cement Products Part 2: Flat Sheets' (ISO 8336 'Fibre Cement Flat Sheets').

Villaboard® Lining has a classification of Type B Category 3 in accordance with the Standard.

Characteristic Type Tests required by AS/NZS 2908.2:2000 (ISO 8336:2004) have been conducted including:

- Bending Strength
- Water Permeability
- Frost Resistance
- Warm Water
- Heat – Rain
- Soak-Dry
- Dimensional & Geometrical
- Apparent Density

These tests have been conducted by the James Hardie Building Products - Product Development Technical Support Group which is accredited by the National Association of Testing Authorities, Australia (NATA) - Accreditation No 14220.
