

Company: All ECNZ certified companies and products

Document number: EVS-13-58

Issue Date: 14 March 2014

Subject: Validity of Environmental Choice NZ certification and certificate expiry

As part of its independent product verification activities, EnviroSpec regularly refers to and reviews Environmental Choice NZ certificates.

These are valid for a period of 12 months and are regularly renewed via annual re-auditing activities carried out by Environmental Choice NZ.

For any given time that a product is deemed to have a valid Environmental Choice NZ certification, the manufacturer and certified product names are notified on the Environmental Choice NZ website.

A print out of the Environmental Choice NZ website, showing nominated products is therefore a suitable and satisfactory set of evidence that the product is certified at the time, and remains certified until removed from the website altogether.

Rather than re-printing and re-uploading a new certificate each 12 month period, EnviroSpec now provides a dated web print-out from the relevant section of the Environmental Choice NZ website, with the associated url for traceability purposes.

This is now supplied as evidence that the product is certified, until it is removed by Environmental Choice NZ from its own website, at which point any reference to product ECNZ certification will be removed from the EnviroSpec website and all associated EnviroSpec documentation accordingly.
