

Author	EnviroSpec Verification Services	
Document type	Green Star NZ compatibility analysis	
Document code	ES-GSNZ-09-11a	
Validity	Created on 18/02/2015– Valid only for the following Green Star NZ tools: - Office 2009 - Interiors 2009 - Education 2009 + V 3 - Industrial	
Client	Forman Building Systems	
Product name	Armaflex	
Product description	<p>Armaflex is very efficient low-temperature insulation, preventing condensation and reducing energy loss. Importantly, the closed-cell structure of this elastomeric foam provides a built-in barrier to water vapour. Closed cell insulation has a discrete, non-interconnected cellular structure. It is not porous, because cells have sealed walls which inhibit moisture migration or wicking inside the insulation. The multi-layered structure can't be compromised by surface punctures or tears. This product is not manufactured, nor does it contain any Ozone depleting Substances, in accordance with the manufacturer declaration</p> 	
Manner in which the product may contribute towards points in Green Star NZ		Associated Symbol in EnviroSpec
• Products must meet specific criteria (e.g. Paint VOC emissions, carpets, etc)		✓
• Products may help achieve points by their very nature, if they are specified and included in the design in accordance with Green Star NZ requirements (e.g. bicycle racks)		●
• Products may help achieve an outcome but they must be used in a specific manner (e.g. lighting control and zoning systems) OR This product can contribute towards the outcome but many other products or factor influence that same outcome (E.g. Potable Water Calculator)		○
